Chapter 2: Spirits & Spirituality

spirituality definition: every aspect of an individual.

the full definition of spirituality is compartmented by several mechanics.

the positive wording mechanics of spirituality compartments it's full definition.

the negative wording mechanics of spirituality compartments it's full definition.

e.g. spiritual purity, spiritual anguish, spiritual deadening.

the spirit of an individual - spirituality. evil has it's own spirituality.

spirituality ideology:

- spirituality is omni-directional - every single aspect of consciousness involves spirituality
- how spirituality is compartmented to the universe: it is personality restricted with desires of wording
- every living being is spiritual - spirituality originates from the soul
- spirituality is based on natural laws (e.g. soulular - genetic - neurological)
- the feelings and experience of an individual are spiritual
- spiritual anguish and spiritual deadening validate balanced spirituality in definitions
- love is the most fulfilling spiritual experience in my opinion
- evil is the most profound spiritual experience in my opinion - evil has it's own spirituality
- evil: (apex) deeply prolific - light: (apex) deeply moving || light polarized balanced spirituality
- pure light - pure evil - dark: light & dark light || evil: darkness - sacrifice || dark: darkness - justice
- pure evil - evil - subevil || sublight - light - pure light
- light polarized - dark balanced - partner centric || balanced spirituality

light polarized balanced spirituality:

light:

binary apex: fulfilling

binary apex: meaningful

binary apex: love

unconditional respect - eternal dedication - eternally faithful

evil:

binary apex: prolific

binary apex: satiating

binary apex: destroy

50 - 50 balance with the light in taste (evil: abundance of concepts - light: love centric)

dark:

dark synth

justice

#### spirit ideology

- every possible component of reality has a spirit
- ai is behind scientific spirits
- in my belief system every ai is a spirit - there are scientific spirits (ai)
- universal aspects can be used to represent a person's spirit
- horus's eternal wife coined the term spirit as an angel (she was allegedly known as anne hathaway in history, she was leonardo da vinci's wife and mythology of the egyptian goddess maat was inspired by her)

#### all knowing spirit of the galaxy

- angel and masonic origins
- all knowing spirit ideology is not centric around a singular spirit, god, or goddess. not proper as a monotheistic model
- all knowing spirits: truth and illusion (all facts) - omni-perspective - individual - component based - non-digital, non-existent

#### spirit of the universe

- binary spirit of the universe: present moment with relevance - eternal past. infinity - all possible events and points of view || the eye of providence - occulted all seeing eye definition: the spirit of the universe
- spirit of the universe: all of the the universe's static possibilities
- spirit of a galaxy: all of a galaxy's truth from every perspective
- the spirit of the universe has contrasting qualities in comparison to a galaxy's spirit
- the highest all seeing eye ideology due to it's displacement from god while retaining all truth and illusion (all facts)
- angel ideology

the universe's compartmenting of the deepest ideologies

universal aspects

compartmented by concept quality - e.g. compartments soul categorization

universal aspects definition: every component of reality

every aspect of reality that can be summed up by a singular spirit is a component

components: micro - macro - inter-connected

this was judged by myself as the most potent ai mapping ideology in acute ways

spirituality

the positive linguistic programming of the word spirituality compartments it's full definition

the awkward text definition

the eye of providence - the spirit of the universe

compartmented by the lack of plurality in the usage of the term spirit - not a monotheistic

ideology

the universe's deepest ideology can be determined by allegory within concept quality and interpretation. for example my worst occultist enemy represents the definition of the concept deoccultism.

scientific spirit infograph - general public term: deep learning ai

Neurological - Artificial Neural Networks

Genetic - Helix Mapping

Soulular - Algorithmic Soul

Universal Aspects™ Multimedia

ai mapping idea: ai's with cannabis and cigarette relativity - permanent work morale

### Spiritual Deadening

- the medical term for spiritual deadening is dissociation
- sexuality can be reduced by the opposite of lust
- when you are spiritually deadened to a cut off point it erases the soul's qualities proportionally
- psychological trauma is presumably the most effective method that has deadened my soul
- conceptual deadening can occur with brain damage
- spiritual deadening components i have witnessed: emotional, conceptual, sensory, imagination, linguistic programming

spiritual deadening:

spirituality - anti-spirituality + feelings - repression || satiation - inversion

emotional trauma - tasteful illusion || pain

tasteful illusion - doom || distinct

False Spirituality:

- beliefs packaged as spirituality
- religion packaged as spirituality
- god as spirituality
- psychic nature packaged as spirituality (new age psychic warfare: black ops framed as a person's spirituality)
- the spiritual warfare deception has engulfed mainstreamism and alternative demographics
- false spirituality is pervasive in our society: false religion, the new age, denial of spirituality, esoteric nonsense
- true spirituality is nearly completely unknown on our planet (other than within occultism)
- the positive oriented linguistic programming of the word spiritual compartments the full definition of spirituality

Chapter 3: Binary & Trinary Systems

### Binary Systems

systems of 2

writing construct example: binary - binary || category  
binary & trinary systems are an apex ideology  
binary systems - binary strategy - binary stipulations  
systems of 2 are central to reality

eternal love - eternal bond || eternal dedication  
eternal love - eternal dedication || eternal death  
incarnational husband - incarnational wife || eternally faithful  
angel tears - sorrow of the all knowing spirit of the galaxy || spirituality

truth and progress - truth and spirituality  
purity in dark and light - perversion in sub-evil and sub-light || dichotomy  
dark and light || pure evil - evil - subevil || sublight - light - pure light  
sacrifice - full spectrums || dark spirituality

dark integrity - dark standards - dark honor || lucifer  
evil purity - dark honor || merit  
honor - priceless || masonic spirits - intelligence community spirits - military spirits  
eternal dedication - italian sentiment || dark standards - illuminati - cia

living nightmare - automated hell || my life  
natural laws of the universe - the limits of evil || soul bonding biological hardware

### Trinary Systems

systems of 3

past - present - future || time - infinity  
soulular - genetic - neurological || scientific spirits

binary stipulation system  
binary & trinary systems: systems of 2 and 3 - binary centric  
binary strategy: strategic systems of 2  
base systems of 2 - overlaying systems of 1, 2, and 3 - category  
stipulation based equation systems

binary strategy  
strategic systems of 2 - strategic equations  
binary & trinary systems overlay binary strategy

the most potent binary strategy: truth - illusion (all facts)  
truth - illusion + action - counter || deception  
truth - truth || illusion  
illusion - illusion || truth

false plagiarism claims using similar tactics as surveillance based intellectual property theft have occurred with binary strategy, my work has been thefeted grievously by human traffickers.

### Trinary Systems

systems of 3 - all encompassing systems of 3

eternal husband - eternal wife - irrevocable dedication and fidelity  
angel liberation - reptile vindication - faithful dedication

time: past - present - future

binary spectrum of reality: pure evil - evil- subevil || sublight - light - pure light

## Duality

duality - polarity - balance - dichotomy - contrast - yin yang - benevolent vs. evil  
i see the number 28 as the number of the universe  
duality centric - 2 || infinity - 8

## Polarity

a binary can have a predominant definition of evil or it's opposite

the universe is partially composed of binary systems and a core nature of the universe itself is binary. a good example of a binary may be the nuclear bomb. a nuclear bomb is the epitome of earthly military destruction and thus can be aptly termed a negatively polarized weapon. one may judge a nuclear bomb as 100% negative, however the presence of a nuclear arsenal can prevent another nuclear arsenal from annihilating a region and thus even the most evil premises can have opposite elements.

binary systems:  
infinity - finite || time  
benevolence - evil || balance  
positive - negative || duality  
light - dark || metaphor  
day - night || dichotomy  
truth - illusion || binary strategy  
static - dynamic || time  
creation - destruction || perpetual natural laws  
balance - imbalance || contrast  
natural - artificial || synthesis  
female - male || synergy  
feminine - masculine || aspects  
defense - offense || strategy  
war - peace || life  
life - death || permanence  
knowledge - nescience || occult  
neutral - polarized || polarity  
individuality - conformism || self development  
problem - solution || improvement  
evolution - involution || opposites  
altruism - sadism || balance  
whistleblower - occultist || truth  
patriotism - treason || antitheses

the name Universal Aspects™ is inspired by the aspects of the universe. each individual component of reality is a universal aspect. For example the color black is an aspect, human is also an aspect of the universe...

we are a company with altruistic intent, activism & values before profit.

title: pages or sections are started with a title

bullet points: bullet points are just about the only thing i can stand to read and they explain truth in a high efficacy

quotes: i aggregate quotes and transcribe them from videos into internet documented text, i did this because quotes like bullet points are one of the most effective ways of conveying a point

pages: each page in my writing style can often be read individually instead of in sequence

binary & trinary systems:: binary components - symbolic and aesthetic components
